SageTV – Settings to play a BluRay.ISO inside Sage no mounting ISO required.

1.) The BluRay.ISO must have been made with Clown_BD v0.41 or higher version.
2.) Must be in your import folder.
3.) I tested this on Sage version 6.4.8 and 6.5.6.204

Here are my Sage Video / Audio settings
Select – Setup > Detailed Setup

Current MPEG2 Video Decoder:
CyberLink Video/SP Decoder (PDVD8)

○ Default

○ ATI MPEG Video Decoder

● CyberLink Video/SP Decoder (PDVD8)

○ Microsoft MPEG-2 Video Decoder

○ SageTV MPEG Video Decoder

That's all you have too set.

Lets play the movie, Select - Media Center > Video
Then select a BluRay.ISO from the list

Folders

TRANSFORMERS_B
luRay.ISO

Select – Watch Now

Options for "TRANSFORMERS_BluRay":

Watch Now ▶
