## SageTV™ Media Center
### Put yourself in Control with this powerful, expandable, and networked Media Center that's a snap to setup and use!

**SageTV Media Center makes it easy to get the most out of your cable or satellite TV service!** Enjoy watching your favorite TV shows anytime you want or pause live TV and have SageTV keep recording what you're watching till you're ready to continue! SageTV makes it so easy for you to enjoy your TV experience, you'll wonder how you ever lived without it! So easy to setup you can be enjoying a whole new TV experience in minutes.

**Easy to use Program Guide.** SageTV's integrated program guide makes it easy to record your favorite shows without having to consult your TV schedule. The guide also makes it easy to find your favorite shows by name, actor or subject so you can have all of your favorite shows ready and waiting for you anytime you want. Never spend another wasted hour channel surfing desperately trying to find something to watch.

**Share live and recorded TV, music and photos throughout the home.** The built in networking of SageTV Media Center allows every networked PC running the SageTV Client software for Windows or any TV connected with the low cost SageTV Media Extender to access the same easy user interface and media that is on the SageTV Media Center. It's also easy to upgrade and expand the SageTV Media Center. There is no need to purchase additional DVRs to use SageTV with other TV's in your home.
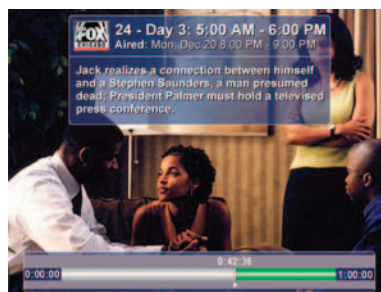

**SageTV Media Center has all the powerful features you expect from a Personal Video Recorder and More!** SageTV's intelligent recording technology can search for shows you might be interested in based on what you've watched and recorded previously. SageTV allows you to use your TV or PC as a powerful media center controlling all your music, photos and video. SageTV includes lots of other powerful features and capabilities including support for multiple tuners, parental control, photo slideshows, instant replay and more! In addition, SageTV doesn't require any subscription fees like your TiVo® or Cable DVR service.
